

# Funding Available through NYSCHA

1. **DISTRICTS:** Funding of \$200 is available for each district to offer programming that relates directly to increasing expertise in college health issues. Application for funding can be made through the Chair of the Networking Committee. (See below for more detail.)
2. **STUDENT PROGRAMMING GRANTS:** Funding is available to campuses who design programs which meet one or both of the following criteria:
  - Programming should benefit students statewide, i.e., a program that could be modeled at other campuses.
  - Programming which will include a number of campuses within a given District.

To request funding, submit proposals to the current NYSCHA President. Forms outlining required information are on the following page and are also included each year in the December/January newsletter. Funding awards will depend on the quality of programming, availability to students within the District, application to student programming statewide, and availability of funds available at the time of application approval. (Note: Funds available may vary by fiscal year.)

3. **ANNUAL STUDENT AWARD:** Student awards are awarded each year. Criteria for submission of candidates will appear in the December and February NYSCHA newsletters. Deadline for applications is generally the end of March. Awards will be announced in May of each year and will also be announced at the Annual Meeting. Students selected for awards will receive a \$100 cash award and registration to the following NYSCHA Annual Meeting.

## APPLYING FOR DISTRICT FUNDS

Programs under consideration for co-sponsorship by NYSCHA and funding of up to \$200 annually per district should be aimed at a statewide audience of a multidisciplinary mix of college health professionals, students, and educators and should be consistent with the NYSCHA mission statement. The program should be publicized in a way that acknowledges co-sponsorship with NYSCHA. Program attendees who are members of NYSCHA must be offered a price differential in the registration fee/ticket.

The District Representative should complete the request form as soon as monetary needs are determined and mailed to the Chair of the NYSCHA Networking Committee. (Names of district representatives and contact information are available on the NYSCHA web site – [www.NYSCHA.org](http://www.NYSCHA.org).)
