**Center for College Sleep**

The Center for College Sleep at the University of St. Thomas works to better understand and improve college sleep by providing rigorous research, educational outreach, and innovative programming. The Center offers two online tools designed to assess and improve sleep on college campuses. The customizable assessment tool, *The College Sleep Questionnaire™*, screens students for impediments to sleep, and offers immediate personalized printable feedback to address concerns. The College Sleep Questionnaire also provides institutional data. *The College Sleep Environmental Scan™* assesses institutional policy, programming, and structures that contribute to or impede healthy sleep. The results can help institutions implement strategies to improve sleep and work toward being a sleep friendly campus.

**Consolidated Health Plans**

CHP continues to promote a culture of innovation, creating new programs for our colleges and students every year. For 2016, we are offering **GAP – Guaranteed Accident Protection** – eliminating students’ medical deductibles for unforeseen accidents, and **Campus Wide Health**, a campus-wide solution for coverage and education. We also offer access to MYCHP, a handy smart phone app that allows students the ability to view claims, eligibility, and more! Visit us at www.chpstudent.com, or at our booth for more information!

Med+Proctor

Med+Proctor, LLC is a cloud-based immunization verification platform that streamlines the process of collecting, registering and verifying critical health information for universities and university health systems nationwide. M+P utilizes the same OCR technology found in banking to deposit checks into a checking account using a smartphone. Our proprietary verification process leverages OCR technology to process immunization forms. Our support desk handles all the immunization-related questions from incoming students/parents, which will increase schools’ incoming student/parent customer satisfaction and bottom line.

NY State of Health

NY State of Health, the Official Health Plan Marketplace, is where New Yorkers can shop, compare and enroll in a quality, affordable health plan and qualify for financial assistance to reduce their costs. Open Enrollment begins on November 1, 2015. Starting in 2016, NY State of Health will introduce a new option called The Essential Plan. Eligible New Yorkers will pay $20 per person per month for coverage – less than a dollar a day – or nothing depending on their income. There is no annual deductible, preventive care is free and other services have only a small copayment. Eligible New Yorkers can also enroll in Medicaid and Child Health Plus through NY State of Health.

Oxford Immunotec Global PLC
Oxford Immunotec Global PLC is a global, high-growth diagnostics company focused on developing and commercializing proprietary tests for the management of immune-regulated conditions. The Company’s first product is the T-SPOT®.TB test, which is used to test for tuberculosis infection. The T-SPOT.TB test has been approved for sale in over 50 countries, including the United States, where it has received pre-market approval from the Food and Drug Administration, Europe, where it has obtained a CE mark, as well as Japan and China. The T-SPOT.CMV test and the T-SPOT.PRT test are the Company’s second and third products and part of a series of products intended for the transplantation market. In addition to these three products, the Company has additional development programs leveraging our T cell, B cell and innate immune measuring technology.

Upstate Concierge Medicine
Upstate Concierge Medicine is the premier provider of virtual college health centers. We provide night and weekend coverage to already existing health centers or create a full time virtual health center for those in need. Via telemedicine we connect providers to students 24/7 using every day technology such as secure phone, text, video and messaging. We can diagnose, prescribe medications, order lab/x-rays and even refer to local PCPs and specialist all while working collaboratively with the college health center. By providing ease of access and quality care, we provide peace of mind for parents, students and colleges reducing unnecessary urgent care and emergency room visits. Our business to business solutions allow college health centers to leverage our providers, technology and expertise to provide telemedicine services under the college health centers brand.

WellTrack
WellTrack provides online therapy for stress, anxiety and depression. It can be used independently by students as an outreach program, but is also designed for use in the counseling center for students working with a clinician. Our mobile app, MoodCheck, helps students monitor their mood and become more self-aware of how activities, places and people can affect their mood.
